

PHAIDROS FUNDS UMBRELLA – AGGREGIERT

Erklärung zu den wichtigsten nachteiligen Auswirkungen von Investitionsentscheidungen auf Nachhaltigkeitsfaktoren

Referenzperiode: 01.01.2023 – 31.12.2023

Stand: Juni 2024

Zusammenfassung

Eyb & Wallwitz Vermögensmanagement GmbH („Eyb & Wallwitz“) berücksichtigt die wichtigsten negativen Auswirkungen seiner Investitionsentscheidungen auf Nachhaltigkeitsfaktoren.

Wir berücksichtigen die wichtigsten negativen Auswirkungen auf Unternehmensebene, indem wir die aggregierten negativen Auswirkungen der Investitionen unserer Phaidros Funds Publikumsfonds auf Nachhaltigkeitsfaktoren messen und überwachen.

Bei unseren Publikumsfonds berücksichtigen wir je nach Datenverfügbarkeit und -qualität die obligatorischen Indikatoren für die wichtigsten negativen Auswirkungen sowie zwei freiwillige Indikatoren, die in der Sustainable Finance Disclosure Regulation (SFDR) festgelegt sind. Die Bewertung der wichtigsten negativen Auswirkungen wird in unseren Richtlinien und Prozessen zur aktiven Beteiligung und zum Engagement beschrieben.

Diese Erklärung zu den wichtigsten negativen Auswirkungen bezieht sich auf den Bezugszeitraum vom 1. Januar 2023 bis zum 31. Dezember 2023 (Q1 2023 – Q4 2023).

Beschreibung der wichtigsten nachteiligen Auswirkungen auf Nachhaltigkeitsfaktoren

Principal adverse sustainability impacts statement for the period: 01.01.2023 – 31.12.2023 | Phaidros Funds Umbrella – aggregiert

Indicators applicable to investments in investee companies

Climate and other environment-related indicators

Adverse Sustainability Indicator	Metric	Impact 2023	Impact 2022	Explanation	Actions taken
Greenhouse Gas Emissions					
1. GHG Emissions	Scope 1 GHG emissions	35,648.54	57,894.34	Sum of portfolio companies' Carbon Emissions - Scope 1 (tCO2e) weighted by the portfolio's value of investment in a company and by the company's most recently available enterprise value including cash. Data coverage 2023 (based on all investments in companies in which investments are made): 93.51%	<p>Further details of our engagement process and our exclusion policy are described in chapter 5 and on https://www.eybwallwitz.de/nachhaltigkeit.</p> <p>The following actions are taken for PAI Indicators 1-6.</p> <p>Engagement As part of the Engagement process, Eyb & Wallwitz engages with companies in sectors with high emissions that do not sufficiently consider the negative impacts of their business on the climate and the environment or do not have a sustainability strategy in place to reduce the negative impacts.</p> <p>Exclusion Eyb & Wallwitz Exclusion policy covers the exclusion of activities with highly negative climate impacts (e.g., producer of fossil fuels or nuclear energy).</p> <p>Proxy Voting Setting GHG Reduction Targets Our Proxy Voting guideline supports that companies report their GHG emissions and adopt a reduction goal for these emissions. Particularly for companies operating in carbon- or energy-intensive industries, and construction industries, we believe that managing and mitigating carbon emissions are important to ensuring long-term financial and environmental sustainability.</p> <p>Energy-Related Proposals Our Proxy Voting guideline supports increased disclosure of renewable energy strategies or efforts toward increased energy efficiency, if: (i) there is credible evidence of egregious or illegal behavior regarding the company's energy strategy or actions in this regard; (ii) the company has been largely unresponsive to shifting regulatory changes related to energy policies; or (iii) adoption of the requested disclosure will clearly lead to an increase in or the protection of shareholder value.</p>
	Scope 2 GHG emissions	7,805.92	14,954.21	Sum of portfolio companies' Carbon Emissions - Scope 2 (tCO2e) weighted by the portfolio's value of investment in a company and by the company's most recently available enterprise value including cash. Data coverage 2023 (based on all investments in companies in which investments are made): 93.51%	
	Scope 3 GHG emissions	163,293.10	277,908.20	Sum of portfolio companies' Scope 3 - Total Emission Estimated (tCO2e) weighted by the portfolio's value of investment in a company and by the company's most recently available enterprise value including cash. Data coverage 2023 (based on all investments in companies in which investments are made): 93.42%	
	Total GHG emissions	206,773.33	351,404.22	The total annual Scope 1, Scope 2, and estimated Scope 3 GHG emissions associated with the market value of the portfolio. Companies' carbon emissions are apportioned across all outstanding shares and bonds (based on the most recently available enterprise value including cash). Data coverage 2023 (based on all investments in companies in which investments are made): 93.42%

Adverse Sustainability Indicator	Metric	Impact 2023	Impact 2022	Explanation	Actions taken
Water					
8. Emissions to water	Tonnes of emissions to water generated by investee companies per million EUR invested, expressed as a weighted average	0.21	76.88	<p>The total annual wastewater discharged (metric tons reported) into surface waters as a result of industrial or manufacturing activities associated with 1 million EUR invested in the portfolio. Companies' water emissions are apportioned across all outstanding shares and bonds (based on the most recently available enterprise value including cash).</p> <p>Data coverage 2023 (based on all investments in companies in which investments are made): 0.43%</p>	<p>Proxy Voting We believe that companies whose operations are especially susceptible to water scarcity issues should integrate water management into their overall business strategy. Our Proxy Voting will consider a company's current level of related disclosure, the level of oversight afforded to water-related issues and a company's overall management of its water usage and impact on water supplies. We are reviewing a company's exposure to potential regulatory, legislative, legal, reputational and direct environmental and social risks associated with its water management.</p>
Waste					
9. Hazardous waste ratio	Tonnes of hazardous waste generated by investee companies per million EUR invested, expressed as a weighted average	0.46	0.57	<p>The total annual hazardous waste (metric tons reported) associated with 1 million EUR invested in the portfolio. Companies' hazardous waste is apportioned across all outstanding shares and bonds (based on the most recently available enterprise value including cash).</p> <p>Data coverage 2023 (based on all investments in companies in which investments are made): 29.17%</p>	<p>Proxy Voting In our Phaidros Funds, we commit to take hazardous waste generated by investee companies into consideration in our investment decisions. Where possible, we engage with companies deemed to be outliers on hazardous waste.</p>

Social and employee, respect for human rights, anti-corruption and anti-bribery matters					
Adverse Sustainability Indicator	Metric	Impact 2023	Impact 2022	Explanation	Actions taken
Social and employee matters					
12. Unadjusted gender pay gap	Average unadjusted gender pay gap of investee companies	10.13%	11.26%	<p>The portfolio holdings' weighted average of the difference between the average gross hourly earnings of male and female employees, as a percentage of male gross earnings.</p> <p>Data coverage 2023 (based on all investments in companies in which investments are made): 25.12%</p>	<p>Proxy Voting We consider the average unadjusted gender pay gap of investee companies. Issuers identified may be subject to further analysis, Engagement and Proxy Voting. Our Proxy Voting supports more disclosure on the issue of gender pay equity in instances where the company has not adequately addressed the issue.</p>
13. Board gender diversity	Average ratio of female to male board members in investee companies	34.03%	33.40%	<p>The portfolio holdings' weighted average of the ratio of female to male board members.</p> <p>Data coverage 2023 (based on all investments in companies in which investments are made): 96.48%</p>	<p>Proxy Voting The selection and screening process for identifying suitably qualified candidates for a company's board of directors requires the examination of many factors, including the balance of skills and talents and breadth of experience, as well as the diversity of candidates and existing board members. However, we generally do not believe companies should establish specific quotas regarding board or committee diversity. We believe such matters should be left to a board's nominating committee. However, in cases of egregious oversight lapses or behavior seriously detrimental to shareholder value, we will consider to proxy vote to broaden a board's composition including to increase board diversity where there is evidence a board's lack of diversity led to a decline in shareholder value.</p>
14. Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)	Share of investments in investee companies involved in the manufacture or selling of controversial weapons	0.00%	0.00%	<p>The percentage of the portfolio's market value exposed to issuers with an industry tie to landmines, cluster munitions, chemical weapons or biological weapons. Note: Industry ties includes ownership, manufacturing and investments. Ties to landmines do not include related safety products.</p> <p>Data coverage 2023 (based on all investments in companies in which investments are made): 96.51%</p>	<p>Exclusion Our Phaidros Funds do not invest in companies that are involved in the production or development of cluster munitions, antipersonnel mines, biological weapons, chemical weapons, weapons with nondetectable fragments, incendiary and blinding laser weapons or depleted uranium munitions.</p>

Beschreibung der Strategien zur Feststellung und Gewichtung der wichtigsten nachteiligen Auswirkungen auf Nachhaltigkeitsfaktoren

Die jeweiligen PAI-Indikatoren werden durch ESG-Daten von Drittanbietern, Jahres- und Nachhaltigkeitsberichten sowie sonstigen Unternehmensveröffentlichungen gewonnen. Die ESG-Strategie von Eyb & Wallwitz bezieht Nachhaltigkeitsrisiken und wesentliche nachteilige Nachhaltigkeitsauswirkungen ganzheitlich im Investitionsprozesses ein. Soweit durch entsprechend verifizierte Datenpunkte verfügbar, findet zudem eine kontinuierliche Überwachung der ausgewählten PAI-Indikatoren für alle Teilfonds des Phaidros Funds Umbrella statt. Vor expliziter Berücksichtigung der PAIs finden unter anderem erste Ausschlüsse anhand ausgewählter Kriterien statt. Diese beinhalten neben generellen Sektor-Ausschlüssen (bspw. Kohle oder Nuklearenergie) auch Ausschlüsse gemäß Umsatzgrenzen (bspw. Alkohol oder Glücksspiel >10%). Zudem finden normbasierte Ausschlüsse gemäß des UN Global Compact, welcher unter anderem Kinder- und Zwangsarbeit, Korruption und Geldwäsche beinhaltet, Anwendung. Auch findet für Staaten als Emittenten ein Ausschluss statt, welche ein unzureichendes Scoring ("nicht frei") nach dem Freedom House Index aufweisen. Anschließend werden PAI-Indikatoren als ein weiteres Bewertungsmerkmal gemäß unserer ESG-Bewertungsmethodik berücksichtigt. Hierzu wird die Performance des jeweiligen PAI-Indikators entsprechend quantifiziert und anhand einer ausgewählten Peergroup bewertet. Anschließend findet eine aggregierte Bewertung aller PAI-Indikatoren des jeweiligen Unternehmens statt, wobei die Gewichtung des einzelnen PAI-Indikators nach Tätigkeitsbereich des Unternehmens und weiteren Unternehmenscharakteristika individuell ausfallen kann. Auf Basis dieser Auswertungen identifiziert Eyb & Wallwitz Unternehmen, bei denen Bedarf einer gesonderten Analyse sowie mögliche weiteren Maßnahmen auf Unternehmensebene bestehen.

Die Geschäftsführung der Eyb & Wallwitz Vermögensmanagement GmbH hat die in diesem Abschnitt beschriebenen Strategien am 4. Mai 2022 genehmigt. Der Head of Responsible Investment verantwortet die operative Umsetzung dieser Strategien und Verfahren.

Mitwirkungspolitik

Welche Maßnahmen, bzw. Maßnahmenkombination Eyb & Wallwitz anwendet, hängt von der Thematik des jeweiligen PAI-Indikators sowie vom spezifischen Kontext der Investition ab, welche die negativen Auswirkungen verursacht. Mögliche Maßnahmen sind unter anderem Engagement-Ansätze oder Ausschlüsse der jeweiligen Portfoliounternehmen mit der schlechtesten PAI-Performance. Die jeweilige Entscheidung geeigneter Maßnahme berücksichtigt unter anderem die Performance und den Schweregrad einzelner nachteiliger Auswirkungen sowie die Eintrittswahrscheinlichkeit negativer Auswirkungen auf die Investition und den möglicherweise irreparablen Folgen. Sollten keine ausreichend verifizierten oder repräsentativen Daten eines Unternehmens vorliegen oder besteht Grund zur Annahme, dass eine signifikante Verbesserung der PAI-Performance zu erwarten ist, kann Eyb & Wallwitz auf weitere Maßnahmen vorerst verzichten.

Grundsätzlich wird eine der Performance der PAI-Indikatoren durch nachfolgende Maßnahmen oder einer Kombination dieser angestrebt:

ENGAGEMENT:

Wir sind davon überzeugt, dass nachhaltiges Wirtschaften langfristig mit wirtschaftlichem Mehrwert einhergeht. Hierzu gehört, dass wir einen aktiven, konstruktiven und zielgerichteten Dialog mit Unternehmen suchen, um diese für einen nachhaltigen Wandel zu sensibilisieren. Wird für ein Unternehmen aufgrund eines einzelnen PAI-Indikators oder aufgrund der aggregierten PAI-Betrachtung eine Engagement-Maßnahme als geeignetste Maßnahme identifiziert, tritt Eyb & Wallwitz mit dem Emittenten in den Dialog, um ein gezieltes nachhaltiges Umdenken auf der Unternehmensseite und daraus resultierend eine Verbesserung der PAI-Performance voranzutreiben. Während diesem Transformationsprozess erfolgt eine kontinuierliche Überwachung und Austausch, um den Fortschritt in regelmäßigen Abständen zu evaluieren und zu fördern.

STIMMRECHTSAUSÜBUNG:

Als aktiver Aktionär und Investor bestärken wir Unternehmen, sich für Nachhaltigkeit zu engagieren, ESG-Defiziten entgegenzuwirken und eine gute Unternehmensführung sicherzustellen. Dieser Anspruch wird im Rahmen von Stimmrechtsausübungen auf Hauptversammlungen mit renommierten Partnern (Glass Lewis) ausgeübt. Dabei werden auch Bedenken gegenüber Unternehmen geäußert, die etablierte Normen aus den Bereichen Umwelt, Soziales oder der Unternehmensführung nicht einhalten oder glaubwürdigen Anschuldigungen einer Missachtung dieser Normen ausgesetzt sind. Hierdurch wird unter anderem auch eine Verbesserung der PAI-Indikatoren angestrebt.

AUSSCHLÜSSE:

Ausschlusskriterien ermöglichen es uns unsere Investitionsentscheidungen auf umweltbezogene, soziale oder unternehmensbezogene Werte auszurichten. Hierbei werden Unternehmen sowohl aufgrund von Sektorzugehörigkeit und Umsatzschwellen als auch aufgrund von normbasierten Standards ausgeschlossen. „Nicht freie“ Staaten nach dem Freedom House Index werden als Emittenten zudem ausgeschlossen. Mindestens 51% des Teilfondsvolumens genügen diesen Ausschlusskriterien, wobei eine maximale Quote angestrebt wird.

KOMPLETTVERKAUF:

Grundsätzlich wendet Eyb & Wallwitz einen Engagement-geleiteten Komplettverkaufsansatz an. Hierbei beurteilen wir zunächst, ob es möglich ist, mit dem betreffenden Unternehmen in Kontakt zu treten, um die negativen Auswirkungen zu mindern. Sollte sich trotz unterschiedlicher Maßnahmen perspektivisch keine positive Veränderung der PAI-Performance erzielen und zeichnen sich hierdurch negative Auswirkungen auf den Wert der Investition ab, ist ein Komplettverkauf als Maßnahme zu ergreifen.

Bezugnahme auf international anerkannte Standards

Als treuhänderischer Vermögensverwalter ist es seit jeher unser zentrales Anliegen, unabhängig, transparent und nur dem Kunden verpflichtet, privates sowie institutionelles Vermögen verantwortungsvoll zu verwalten. Im Rahmen eines verantwortlichen Investierens orientieren wir uns an den jeweils gültigen Gesetzen, regulatorischen Anforderungen sowie darüber hinaus auch an internationale Standards, die als Maßstab für unsere Entscheidungen dienen. Wir sind bestrebt, unsere Anlageprodukte nach den Grundsätzen dieser UN-Prinzipien zu investieren. Als Unterzeichner des UN-PRI verpflichten wir uns, die folgenden sechs Grundsätze für verantwortungsbewusstes Investieren umzusetzen.

- Wir beziehen ESG Themen in unsere Analysen und unsere Anlageentscheidungen mit ein.
- Wir engagieren uns aktiv und integrieren ESG Themen in unsere Investmentprozesse.
- Wir verlangen eine Offenlegung von ESG Themen von den Unternehmen, in die wir investieren.
- Wir unterstützen die Akzeptanz und Implementierung von Prinzipien innerhalb der Finanzwelt.
- Wir arbeiten zur Erhöhung der Effektivität der Umsetzung dieser Grundsätze zusammen.
- Wir berichten regelmäßig über den Fortschritt der Implementierung dieser Grundsätze.

Historischer Vergleich

Der historische Vergleich der ausgewiesenen Werte für die jeweiligen nachteiligen Nachhaltigkeitsauswirkungen kann den obigen Tabellen entnommen werden.
